

NARRATIVE SUB-PROCESSORS

Last Updated March 31, 2019

The Narrative Company uses the following third party sub-processors either for the content network, our website, or for other functions related to overall operations:

- [Mailchimp](#): Email newsletter service used for the Narrative newsletter.
- [Google Analytics](#): Web analytics service used to track usage on the application and our website. Please note that we do not use for advertising or retargeting.
- [Google Cloud Platform](#): Cloud services provider.
- [Social Strata](#): Software used for our Support Community.
- [Onfido](#): Certification service. Only in use when you certify your Narrative account.
- [Paypal](#): Payment service for fiat payments for Narrative.

Data is shared with these providers only as necessary to perform the service that each provides.

This list will be updated as necessary.
